

Pre-Experiment Survey

* Required

1. Participant ID *

2. Which of these statements best indicates your prior exposure to Computer Science:

Mark only one oval.

- ☐ I have never programmed before; I have little to no specific knowledge of computer science.
- ☐ I have completed some introductory programming class or program before, however, would say that I am a novice.
- ☐ I have completed several programming courses and would consider myself an intermediate programmer in at least one programming language.
- ☐ I have had a job or internship where a major component of my working hours were spent programming. I know how to program in several different programming languages comfortably.

3. Select as many of these as apply to your experience with Robotics:

Check all that apply.

- ☐ I have been exposed to robots in movies and science fiction.
- ☐ I have owned toy robots or robots in the home or workplace and am familiar interacting with them.
- ☐ I have participated in a study where I have interacted with a robot.
- ☐ I have held a conversation with a robot.
- ☐ I have programmed a robot.
